SUMMARY

Software Development Engineer with 3+ years of experience at Amazon and Bigthinx, specializing in ML systems, computer vision, backend development, and scalable distributed architectures. Proven track record of building high impact features, reducing operational load, and improving user experience through data driven development.

WORK EXPERIENCE

Software Development Engineer

08/2022 – 11/2024

Amazon

Chennai, Tamil Nadu, India

- Owned and Delivered the Incoming Call Blocking feature for Alexa, reducing monthly user churn by 10%.
- Designed and Implemented a Malware Scanner for file uploads, enhancing security within the Alexa LLM architecture.
- Launched an experimental primer page to optimize Alexa device setup flows through user acceptance A/B testing.
- Collaborated with cross-functional teams and spearheaded operational load reduction initiatives.

Computer Vision Engineer

06/2019 – 01/2020

Bigthinx

Bangalore, Karnataka, India

- Proposed and implemented process-based parallelism written in Python, which reduced the Image Processing server's latency by 60%.
- Implemented ML (Machine Learning) detectors using C++ and deployed them on edge devices.
- Researched and prototyped ML techniques/algorithms for object detection and recognition.

EDUCATION

Bachelor of Engineering in Mechatronics

04/2015 – 04/2019

Anna University

Coimbatore, Tamil Nadu, India

PROJECTS

- **Keras** Contributed a dataset splitting utility feature to Keras, a Deep Learning API built on top of Google's Tensorflow and used by over 1 million users in the tech industry and research community.
- **DeFIR** Image Retrieval System to find similar images based on their content using the Nearest Neighbour Search Algorithm and Deep Learning.
- **Pyqoi** A library to support the "Quite OK Image" file format in Python, which implements a faster and more efficient lossless compression algorithm than other Image formats.

SKILLS

- **Languages:** Python, Java, C, C++, JavaScript, XML, SQL, Html, CSS
- **Frameworks & libraries:** Spring, TensorFlow, Flask, Keras, OpenCV, ReactJS, Nodejs
- **Technologies & Tools:** Docker, MySQL, MongoDB, Data structures and algorithms, Computer Vision.
- **Competitive programming:** codechef.com/users/prakash1729brt (3 stars), leetcode.com/prakashsellathurai
